## B - Electoral Roll and Potential Income

	2007		2006	
	No.		No.	
Reported electoral roll figures (note 4)				
Current year when allocation made	2006		2005	
1 year previous	2005	1,572	2004	1,552
2 years previous	2004	1,552	2003	1,534
3 years previous	2003	1,534	2002	1,495
4 years previous	2002	1,495	2001	1,436
Four year average		1,538		1,504
Average weekly income of population (Box A above)		£324.50		£330.67
Deanery potential income per week		£499,077		£497,334
Total diocesan potential income per week		£18,772,521		£19,324,833
Deanery proportion of total		2.659%		2.574%
		Box B		Box B

Note 4: Electoral roll figures are as notified by parishes. If no figure is received by the deadline, the previous year's figure plus 10% is used. Retrospective adjustments are made for changes in local ecumenical partnerships and transfers of parishes between deaneries - this is advised separately where relevant.

## C - Net Ministry Cost

	2007			2006		
	Number of posts (note 5) No.	Net cost per post (note 6) £	Net ministry cost £	Number of posts (note 5) No.	Net cost per post (note 6) £	Net ministry cost £
Stipendiary minister	19.2	£42,507	816,134	20.2	£40,448	817,050
Training curate (note 7)	3.0	-	-	3.0	-	-
House for duty	-	£8,613	-	-	£8,107	-
Non-stipendiary minister	3.0	£1,851	5,553	4.0	£1,804	7,216
Ordained local minister	2.0	£1,535	3,070	1.0	£1,395	1,395
Licensed lay minister	14.0	£64	896	15.0	£65	975
			825,653			826,636
<i>Total no. &amp; costs of archdeaconry posts (note 8)</i>	<i>1.5</i>	<i>£63,761</i>		<i>0.0</i>	<i>£0</i>	
Apportioned share of costs of archdeaconry posts			4,899			-
			830,552			826,636
Deprivation allowance (note 9)	4.0	£42,507	(170,028)	4.0	£40,448	(161,792)
Adjusted net ministry cost			<b>£660,524</b> Box C			<b>£664,844</b> Box C

Note 5: Posts allocated to the deanery & funded by the diocese as at 1 February in the prior year (when the allocation is made), whether or not the posts are filled then.

Note 6: The diocesan average net cost for the type of post, based on the budget for the year and including (as applicable) salary, housing, training & other indirect costs. The amounts shown are after deducting certain glebe and other income which covers part of the actual gross costs.

Note 7: The total cost of curates in training is included as part of the cost per post of all stipendiary clergy in the diocese, rather than being attributed to the training posts.

Note 8: The costs of posts shown as allocated to an archdeaconry (rather than a particular deanery) are spread across deaneries pro rata to the deaneries' initial share allocation.

Note 9: Given to deaneries with wards in the 3,000 most deprived wards in the country, by deducting a number of stipendiary posts (so that the value of the allowance is maintained as the costs of posts rise).

## Archdeaconry: Buckinghamshire

## Milton Keynes

## D - Parish Share Calculation

	2007		2006	
		Parish share £		Parish share £
<b>Initial allocation</b>				
Initial allocation total for diocese (note 10)	<i>d</i>	£16,025,642		£15,479,042
Deanery proportion of total (from Box B above)	<i>e</i>	2.659%		2.574%
Initial allocation to deanery	<i>f</i>	<i>d x e</i>	426,050	398,361
<b>Increase/(decrease) to move towards ministry cost</b>				
Adjusted net ministry cost (from Box C above)	<i>g</i>	£660,524		£664,844
Proportion of ministry cost covered by initial allocation	<i>h</i>	<i>f as % of g</i>	65%	60%
Additional ministry cost adjustment this year (note 11)	<i>i</i>	4.0%		4.0%
Adjustment brought forward from previous year	<i>j</i>	<i>% of f</i>	4.0%	-
Additional adjustment this year (as above)	<i>k</i>	<i>% of f</i>	4.0%	4.0%
Cumulative adjustment	<i>l</i>	<i>% of f</i>	8.0%	4.0%
Restriction to upper and lower limits (note 12)	<i>m</i>		-	-
Ministry cost adjustment	<i>n</i>		34,084	15,934
<b>Parish share before transitional adjustments</b>	<i>o</i>	<i>f + n</i>	460,133	414,295
Proportion of adjusted net ministry cost covered	<i>p</i>	<i>o as % of g</i>	70%	62%
<b>Transitional adjustment</b>				
Percentage increase over previous year	<i>q</i>	12.4%		10.3%
Transitional adjustment (note 13)	<i>r</i>		(19,875)	(4,753)
<b>Actual parish share requirement</b>	<i>s</i>	<i>o + r</i>	£440,258	£409,542
Percentage increase over previous year	<i>t</i>		7.5%	9.0%
Proportion of adjusted net ministry cost covered	<i>u</i>	<i>s as % of g</i>	67%	62%

Note 10: The total parish share required is £16221000. Allowing for the net amount raised by ministry cost & transitional adjustments, the initial total to be allocated is £16025642.

Note 11: The additional adjustment made this year to increase/(decrease) a deanery's initial allocation of parish share so as to move it nearer to that deanery's adjusted net ministry cost. This adjustment is added to any adjustment brought forward from the previous year.

Note 12: The cumulative ministry cost adjustment is limited so that parish share is not increased to more than 100% of adjusted net ministry cost or reduced to less than 140%.

Note 13: The transitional adjustment limits any deanery's increase to a maximum of 7.5% (2006: 9%) and a minimum of 2% (2006: 3%).

## Archdeaconry: Buckinghamshire

## Milton Keynes

## E - Analysis of Change from Previous Year

	Initial allocation £	Ministry cost adjustment £	Transitional adjustment £	Total parish share £	Increase/ (decrease) %
<b>Parish share in 2006</b>	398,361	15,934	(4,753)	409,542	
Effect of changes in electoral roll (note 14)	17,390			17,390	4.2%
Effect of changes in national income statistics (note 15)	(4,233)			(4,233)	(1.0%)
Net effect of change in potential income (note 16)	13,157			13,157	
Effect of increase in total initial allocation (note 17)	14,532			14,532	3.5%
Increase/(decrease) in initial allocation to deanery	27,689			27,689	
Increase/(decrease) in initial allocation to deanery (as above)		27,689			
Brought forward ministry cost adjustment		4.0%			
Effect of change in initial allocation on brought forward adjustment		1,108		1,108	0.3%
Initial allocation to deanery for 2007		426,050			
Additional ministry cost adjustment this year		4.0%			
Effect of additional ministry cost adjustment this year		17,042		17,042	4.2%
Effect of limiting ministry cost adjustment (note 18)		-		-	-
Effect of change in transitional adjustment (note 19)			(15,123)	(15,123)	(3.7%)
<b>Parish share in 2007</b>	<b>426,050</b>	<b>34,084</b>	<b>(19,875)</b>	<b>440,258</b>	<b>7.5%</b>

Note 14: This reflects the fact that the deanery's four year average electoral roll has increased by 2.3% compared with a diocesan average fall of -2%.

Note 15: This reflects the change in the average income of the population of the deanery as a whole, relative to other deaneries.

Note 16: This reflects the increase in the deanery's proportion of total diocesan potential income from 2.574% to 2.659%.

Note 17: The increase in initial allocation is less than the overall parish share increase of 4% because some of the latter comes from the ministry cost and transitional adjustments.

Note 18: The cumulative ministry cost adjustment is limited so that parish share is not increased to more than 100% of adjusted net ministry cost or reduced to less than 140%.

Note 19: The transitional adjustment limits any deanery's increase to a maximum of 7.5% (2006: 9%) and a minimum of 2% (2006: 3%).

NB This summary may contain some small rounding differences.
