Oxford Diocesan Synod

2018 Draft Budget and Projections– Strategic Overview

During 2018 the Diocese is being asked by Bishop Steven to think about what it would mean for the Church in our area to be more Christ-like, more aligned to qualities set out in the Beatitudes. Alongside this, working groups are looking at six areas to determine whether there is a significant goal which, if it was achieved, would move the Church forward in important ways to be more Christ-like – more contemplative, compassionate and courageous. The six areas are:

- To make a bigger difference in the world and serve the poor
- To share our faith with adults, children and young people and grow the local church in every place: rural, urban and suburban.
- To plant new churches and congregations everywhere we can
- To serve every school in our community
- To put the discipleship of all at the heart of our common life and set God's people free
- To celebrate and bless our fastest growing city: Milton Keynes.

During the summer and autumn of 2018 diocesan feedback and the work of the groups will be considered together to determine which of the areas should be taken forward and in what way. This may impact the diocesan budget in 2019 and beyond although we would also intend to make a bid for national Strategic Development funding and to identify other sources of income.

In 2018 the budget is focussed on current activity. 80% relates to the direct provision of parish ministry through stipends, housing, pensions, National Insurance and other related costs. The impact of the government's Apprenticeship Levy (0.5% of stipends costs - £45K) is included. Discussions are still continuing nationally and regionally to determine whether any of this can be reclaimed to support ordinands' training. However it seems likely that, if this is the case, it will have to be used to enhance training rather than to subsidise current provision.

Nationally the impact of clergy retirements is being felt strongly with parishes finding it difficult to replace clergy. Within the diocese, although there are often fewer applicants than in previous years, the average number of vacancies to September 2017 was 27.4 . It is proposed to continue to budget at the lower net level of 26 posts in 2018 to prevent an unplanned overspend on the stipends bill. However, this will be kept under review.

The impact of increasing the number of people being selected for ordination is also being felt slowly. The DDO team, now at full strength, have seen an increase in candidates going forward for selection and it is hoped that this will continue so that the diocese achieves an increase of at least 50% to help to mitigate the lack of clergy available. The consequent increase in costs will relate not only to initial training but also to the costs of curacies and will be cumulative as further cohorts of ordinands are trained. It may therefore seem surprising to see a reduction in the number of curates in the 2018 budget (52 from 55). This is because the current cohort of year 3 to 4 curates was quite small and a number of them found posts early in the academic year meaning that the 2018 costs will be lower than budgeted. This will not continue. The commentary notes that a 16% increase in the national Vote 1 budget for ordinand training is forecast for 2019, with a further 15.3% increase in 2020 which will **add** £300K to our diocesan contribution in 2020 compared to 2018. This combined

with a projected increase in other national church costs will have a significant impact on the projections. Overall Votes 1-5 of the national church budget are planned to increase by 3.5% in 2018 when Oxford Diocese will be asked to contribute £1,996K. In 2020 Votes 2-5 will be £126K per year **more** than in 2018.

When considering the projections it should be noted that in 2018 £100K of the diocesan budget is being allocated to the Mission Fund for use in parishes and deaneries, as agreed by Bishop's Council. This is the first year in which it will come from the diocesan budget rather than the allocation from the Church Commissioners, determined by the Archbishops' Council, which has now come to an end.

Work will continue in the coming months to address the deficits shown in the projections. There are a number of factors that will influence the position, both in terms of additional cost and income, which are not yet clear. This will include any decisions re the use of a Total Return approach to the investment of endowed funds.

The commitment to provide high quality, cost effective services continues. No inflationary increase has been made for non-staff costs. We are fortunate in our glebe investments and, in consultation with the ODBF investment managers, are intending to set an increased income target of £3,542K, £400K more than in 2017, while maintaining capital values. This has allowed an average share increase to be held at 1.75% in 2018, recognising that some deaneries and parishes will experience higher local increases. It also assumes a reduced rate of under-collection of 2.50% as deaneries move forward in their plans to return to full levels of giving. It is anticipated that the gradual introduction of the Parish Giving Scheme from this autumn, which manages the Gift Aid recovery process and which encourages inflation-linked giving will also help parishes increase their local levels of giving and income.

Rosemary Pearce

Diocesan Secretary

October 2017

2018 ODBF Draft Diocesan Budget with Projections to 2020

A 2018 Draft Budget as presented to June Diocesan Synod

The draft 2018 budget as presented to Diocesan Synod in June showed an overall surplus of £19K.

The key assumptions used at this stage were:

- Stipend increase 2% (2017:2%)
- Share increase 1.75% (2017: 1.75%)
- Share under collection 2.5% (2017 2.75%) to show progressive improvement per year
- Clergy vacancies 26 (28 less 2 emergency posts) (2017: net 29)
- Clergy pension contributions 39.9% (2017 39.9%)
- Buildings repairs increase 0% (2017 2%)
- Stipendiary clergy posts: 323 (2017:323.5)

The draft budget included provisions of £100K additional costs for mission development grants to be allocated through the archdeaconries; £400K in additional glebe income from the investment of the proceeds of recent land sales; funding for a development post at Arborfield and for a further year for the development of free school bids by ODBE.

B Changes and considerations to the budget since June

The 2018 budget has been reviewed over the summer in light of the emerging results for 2017, resulting in a budgeted **surplus of £104K** (0.4% of expenditure) for 2018, a net **£85K** increase on the draft presented to June Diocesan Synod. This overall improvement is due to the changes below.

1. The number of year 4 curates in post in the early part of the year is likely to be less than anticipated as it was a small cohort and most have moved on to new roles. A reduction in an average of 3 stipendiary curates' posts has therefore been made to reflect this situation resulting in a saving of **£108K**. This is not expected to be an on-going reduction and the situation will be reviewed when the 2019 budget is prepared.
2. A reduction of **£50K** is made to Department of Mission costs as general vacancy management reflecting past experience of underspends because of vacant posts.
3. At their July meeting the Buildings Strategy Committee debated whether the current £50K p.a. New Projects Group Grants budget should be increased. Members voted to request additional funding and PBSC are recommending an additional **£25K** grant funding be included in the 2018 budget.

Two changes outside of diocesan control add **£83K** costs to the 2018 budget, as follows:

4. The National Church apportionment Votes 1-5 for 2018 have now been confirmed by General Synod, with an overall 3.5% increase from 2017 before pooling. In 2018 Oxford Diocese has been requested to contribute an additional £10K via the pooling adjustment (2017: £13K refund), leading to a total net apportionment of £1,996K for 2018, an increase of **£38K** compared to the draft budget.

5. The Apprenticeship levy became due from April 2017 for clergy, and now that Oxford Diocese's share of the costs are known this is included in the 2018 budget at **£45K**.

The following three changes resulting from the Share Allocation for 2018 have an **overall nil net effect**:

6. Clergy post number changes: the Archdeacons have advised of changes to stipendiary posts for the 2018 share allocation resulting in a net decrease in two posts, in addition to the half post decrease in the first draft share allocation presented to June Synod. The reduction of two posts reduces the budget for stipend, national insurance and pension costs by **£77K**.
7. Parish share changes: changes to ministry posts are outside of capping in the share allocation, and if a deanery loses a post the ministry costs in their share will decrease by the cost of the post. Similarly if a deanery loses a House for Duty post their share will decrease by £13,500 per post. The stipendiary and house for duty post changes decreases the share allocation by **£122K** since the version presented to June Synod, from £20,288K to £20,166K.
8. Buildings rental income: the reduction of stipendiary and house for duty posts advised by Archdeacons results in an increase in houses available for short term rental, and the rental income budget has increased by **£45K** to reflect this, and to match the loss of share income.

The above changes together with £35K more minor changes lead to a provisional budgeted surplus of **£104K** subject to share under collection not exceeding 2.5%.

C Clergy vacancies

The 2018 budget includes provision for an average 28 vacancies less 2 emergency posts – net 26. The latest available vacancy reports show 27.5 vacancies, with an average for January to August 2017 of 27.2. Senior Staff have notified us of a net decrease of 3.5 posts from 2017, posts which are currently included in the vacancy figures. As vacancy figures are hard to predict, we propose to leave the current vacancy figure for 2018.

D Revised 2018 budget assumptions

Given the above changes, the revised budget assumptions for 2018 become as follows:

- Stipend increase 2% (2017:2%)
- Share increase 1.75% (2017: 1.75%)
- Share under collection 2.5% (2017 2.75%) to show progressive improvement per year
- Clergy vacancies 26 (28 less 2 emergency posts) (2017: net 29)
- Clergy pension contributions 39.9% (2017 39.9%)
- Buildings repairs increase 0% (2017 2%)
- Stipendiary clergy posts: 321(2017:323.5)

E Financial Projections 2019-2021

The projections are built on the key assumptions listed in the summary paper, in particular on the premise of equal stipend and share increases and a 0.25% p.a. improvement in share under collection. The projections are likely to change in line with the new diocesan strategy; the current forecasts are built on similar assumptions to the 2018 budget, with a number of key changes as follows:

- Return to usual budgeted levels of 55 average curates in training (3 higher than 2018 budget), approx. cost £108K p.a.
- Inclusion of potential deficit payments to the Pensions Trust from 2019 at £150K p.a. – as the next triennial valuation will be in progress in 2018 no payments are anticipated to be due until January 2019
- Increasing National Church Vote 1 costs from 2019 due to an anticipated increase in number of ordinands in training nationally: 16% forecast increase in 2019 and a further 15.3% increase in 2020, an additional £300K p.a. by 2020 compared to 2018
- Increasing National Church costs for Votes 2-5 in line with projections included in the draft Archbishops' Council budget presented to General Synod in July – an additional £126K p.a. by 2020 compared to 2018
- Ending of a 2 year post in 2020 giving a saving of £25K in 2021 compared to 2020

Overall this gives a **projected deficit** of £227K in 2019, £378K in 2020 and £307K in 2021. There are a number of factors that will influence the position, both in terms of additional cost and income, which are not yet clear. This will include any decisions re the use of a Total Return approach to the investment of endowed funds.

F Capital Budgets – houses and other

The Director of Buildings has provided a detailed basis for the projected movements per fund in Capital Transactions for 2017-9. 2020-21 parsonage fund projections are based on an average of 2 sales and 2 purchases of clergy houses per year. New Communities property purchases are included as Glebe Funded properties, in line with detailed forecasts presented to the Glebe Committee.

G 2018 Draft Share allocation

The 2018 draft share allocation was presented to Synod in June, with the understanding that ministry costs were subject to update by the archdeacons over the summer to reflect post changes – see paragraph B7 on page 2. The archdeacons have provided details of post changes, and these are summarised at the end of the attached share allocation. No other changes have been made to the draft share allocation as presented in June in order to enable deaneries to plan their allocations.

	Draft Budget 2018			Synod approved Budget 2017			Favourable / (Adverse) Variance

Oxford Diocesan Board of Finance
Draft Diocesan Budget 2018 and Projections 2019 to 2021

SUMMARY BALANCE SHEET PROJECTIONS IN RESPECT OF UNRESTRICTED FUNDS ONLY

as at 31 December	2016	2017	2018	2019	2020	2021
Note	Actual £m	Forecast £m	Budget £m	Projection £m	Projection £m	Projection £m
Assets						
Fixed Assets	76.9	72.7	72.2	72.9	72.9	72.9
Debtors less Creditors	(2.9)	(2.9)	(2.9)	(2.9)	(2.9)	(2.9)
Cash ,Deposits and Investments	6.5	11.0	11.2	10.1	9.5	8.9
	<u>80.5</u>	<u>80.8</u>	<u>80.5</u>	<u>80.1</u>	<u>79.5</u>	<u>78.9</u>
Capital and Reserves						
Designated Funds	76.3	71.9	71.0	71.5	71.3	71.1
General Funds	4.2	8.9	9.5	8.6	8.2	7.8
	<u>80.5</u>	<u>80.8</u>	<u>80.5</u>	<u>80.1</u>	<u>79.5</u>	<u>78.9</u>

Note

The summary balance sheets are based on unrestricted (general and designated) funds only, therefore exclude parsonage houses and glebe assets, but including board properties valued at £76.5M at 31 December 2016

Given the uncertainty in fluctuations in house prices, no increase in value has been included in the property projections

Cash movements include the use of designated funds and projected surpluses in addition to property transactions

The increase in general funds between 2016 and 2017 is due to the receipt of sale proceeds from Diocesan Church House and other board properties in addition to the forecast revenue surplus of £0.5m. 2016 general funds were unusually low due to the purchase of Church House Oxford before the related sale. General funds continue to grow in 2018 due to further property sales, and then decrease 2019-21 due to projected revenue deficits and property purchases.

2018 Draft Share Allocation to November Diocesan Synod

Oxford Diocesan Synod**2017 Forecast Revenue Budget Outturn**

The budget for 2017 was set for a surplus of £14K. After consideration of activities to date and anticipated costs and income in the remainder of the year, the forecast surplus for 2017 has been revised to £501K, an improvement of £487K.

The change is primarily due to the following factors:

Glebe dividend income: The budget was set before the sale of the Haddenham glebe land was anticipated and before additional dividend income was received in the last quarter of 2016. Most of the proceeds from the sale have been invested and the latest forecast for glebe investment income is £227K higher than budget.

Stipendiary ministry costs: The forecast saving of £66K arises from stipends of curates in training – an average of 55 were budgeted for the year, assuming that year 4 curates would on average leave half way through the year, however the current year 4 curates have already mostly moved to new roles.

Mission in the Diocese: Of the forecast underspend of £133K, £80K results mostly from a number of posts unfilled for part of the year: Deputy Director (Ministerial Formation), Generous Giving Adviser, 0.5 vocations advisor, administrator; the remaining £53K reduction is due to changes to activities since the budget was set. A further saving of £70K relates to unfilled chaplaincy posts.

Parish share income: The overall collection rate at the end of September was 71.8%, a slight improvement on the rate at the same date last year. It is too early to tell whether under-collections will be within the budgeted 2.75% of share but we remain hopeful.
